Our Goal

To promote human rights and social justice for underprivileged and marginalized community. It will facilitate to enable them to acquire essential services for the livelihood.

CONTACT PERSON:

S. M. Shirajul Islam
Executive Director
Peoples Development Community (PDC)

Preface

Bangladesh is one of the poorest countries in the world. Significant levels of poverty, low literacy, a large population, and other relevant factors are influencing the incidences of violation of human rights and social justice with

regard to underprivileged and marginalized population. Instead of being the protector of human rights, the state i.e. the government machinery is playing the role of tyrant. The situation relating to the right to non-discrimination based on gender, sexual orientation, sex work and drug use is very worse in Bangladesh.

Peoples Development Community (PDC) has completed another successful year as a non-government organization to promote human rights and social justice for underprivileged and marginalized community.

PDC firmly believe that the generous assistance of each compassionate i.e. Civil Society Organizations, Community based Organizations, & international organization, UN based organizations and Donor Organizations can hold up the dignity and encourage to take underprivileged and marginalized communities in the main stream to the society. PDC is looking forward to coming exiting year and bids fare to establish underprivileged and marginalized populations' human rights, dignity and social justice through community mobilization, empowerment, and advocacy on structural change.

Peoples Development Community (PDC) has completed another successful year as a non-government organization to promote human rights and social justice for underprivileged and marginalized community.

S. M. Shirajul Islam
Executive Director
Peoples Development Community (PDC)

Introduction

Peoples Development Community (PDC) is a national NGO working with several sectors and many parts of Bangladesh since 2003 for different vulnerable and marginalized community. PDC working with pioneering role in sexual and reproductive health and HIV/AIDS prevention strategies in collaboration with Government, donors, INGOs, research & academic institutions and civil societies. It has been working with other organizations for advocacy and campaign to establish the human and legal rights, minimizing discrimination and stigma among the vulnerable and marginalized community. PDC also addressing Basic literacy Education, Livelihood skills training, violence against women, empowerment and community development issues.

PDC started with its mission for contributing to reduce the violation of human rights to poor specially women and marginalized groups of the community through advocacy, community mobilization and community empowerment and thrives for Bangladesh where all sectors contribute to uphold human rights and the people, specifically women of all level living dignity, justice and social rights.

Peoples Development Community (PDC) has a seven member executive committee. Executive Director Lead the organization and a group of advisors consist of technical experts in different fields related to respective project issues provide supports in project management and program development. Each project is managed by

respective project staffs headed by respective Project Coordinator/Team Leader. Over all general management and procurements manage by separate team headed by respective departmental Head.

Peoples Development Community (PDC) has 13 years of work experience. PDC handled a total of Taka 54,046,830.00 in year 2015 funded by mainly GFATM through Save the Children Fund USA, Ministry Health and Family Welfares, World Bank through NASP and Dutch Foreign Ministry - BUZA through HASAB.

In previous PDC implemented projects on Providing Health, Nutrition and Family Planning services under Ministry of Health and Family Planning, Post literacy and continuing Education for Human Development Project (PLCEHD-1) funded by World Bank and Hope for children, UK. PDC has track record of success in influencing similar social actors as mentioned above during the implementation of the programs as mentioned.

PDC recently completed the Feasibility study of **FK Norway Exchange Program** in collaboration with its Indian Partner JPISC and designing a project within the FK framework that to be started in February 2019.

PDC presently running a clinic in Jashor through which provide the essential services for **Reproductive Health and Family Planning Services** in Jashor Municipality area with the support of Ministry of Health and Family Welfare.
